2019 EFCE Excellence Award in Product Design and Engineering - Call for Nominations

The European Federation of Chemical Engineering (EFCE) is pleased to announce the **2019 Excellence Award in Product Design and Engineering**.

Launched in 2010 by the EFCE Section on Product Design and Engineering, the award aims to recognise the PhD thesis or peer-reviewed papers of a young researcher which demonstrate(s) the most outstanding contribution to research and/or practice in the field. The previous award winners are Assistant Prof. Arab Belkadi, Dr. Miguel André Abreu Teixeira, and Dr.-Ing Patrick Froberg.

The award comprises a certificate and a cash prize of EUR 1,500. It will be presented to the winner at the 7th European Symposium on Product Design and Engineering held in conjunction with the 12th European Congress of Chemical Engineering (ECCE12) in Florence, Italy, on 15 to 19 September 2019.

A travel grant of up to EUR 500 and a fee waiver to attend are also included.

Nominations may be submitted by any PhD supervisor at a PhD-awarding institution in an EFCE Member Country or by a member of an EFCE Member Society. The PhD thesis or papers nominated must address a topic relevant to the field of product design and engineering.

Only PhD theses and papers published between 1 January 2017 and 31 December 2018 are eligible for nomination.

A nominated PhD thesis must have been completed and published and the PhD degree examined and awarded.

The deadline for nominations is **1 March 2019**.

For further information about the nomination procedure, eligibility and supporting documentation, please refer to the EFCE website:

About chemical engineers

Chemical, biochemical and process engineering is the application of science, maths and economics to the process of turning raw materials into everyday products. Professional chemical engineers design, construct and manage process operations all over the world. Oil and gas, pharmaceuticals, food and drink, synthetic fibres and clean drinking water are just some of the products where chemical engineering plays a central role.

About EFCE

Founded in 1953, The European Federation of Chemical Engineering (EFCE) is a non-profit-making association, whose object is to promote co-operation in Europe between non-profit-making professional scientific and technical societies in 30 countries for the general advancement of chemical engineering and as a means of furthering the development of chemical engineering. See www.efce.org

About Beiersdorf AG

Beiersdorf AG is a leading provider of innovative, high-quality skin care products and has over 135 years of experience in this market segment. The Hamburg-based company has about 19,000 employees worldwide and is listed on the DAX, the German benchmark equities index. Beiersdorf generated sales of €7.1 billion in financial year 2017. Its product portfolio comprises strong, international leading skin and body care brands including NIVEA – the world's No. 1 skin care brand* – Eucerin, Hansaplast/Elastoplast, and La Prairie. Millions of people around the world choose the Beiersdorf brands every day for its innovative, high-quality products. Further renowned brands such as Labello, Florena, 8x4, Hidrofugal, arix, Aquaphor, SLEK, and Maestro round off the extensive portfolio. Beiersdorf's wholly owned affiliate tesa SE, another globally leading manufacturer in its field, supplies self-adhesive products and system solutions to industry, craft businesses, and consumers.
